

## Taridium Certified Phones

Cisco 7905, 7912, 7940, 7960 and 7970

---

The Cisco IP Phone 7960G, a key offering in the IP Phone portfolio, is a full-featured IP phone primarily for manager and executive needs. It provides six or four programmable line/feature buttons and four interactive soft keys that guide a user through call features and functions.

not recommended with automatic provisioning over NAT networks

## Aastra 5xi Series Phones

---

The 5xi phones from Aastra offer powerful features and flexibility in standards based, carrier-grade advanced level expandable IP telephones.

## Aastra SIP DECT

---

Employing the latest in DECT technology, the Aastra SIP-DECT™ Solution offers superior levels of interference-free performance, security and reliability in a cordless SIP telephone system. This scalable, enterprise grade, mobility solution allows users to take the features and voice quality of their desk telephone with them throughout their office environment or related branch offices serviced by the same Corporate network.

## Nokia N and E Series Mobile Phones

---

The Nokia N series 3G handsets are aimed at users looking to pack as many features as possible into one device. The better-than-average cameras often found on Nseries devices are one such example, as are the video and music playback and photo viewing capabilities of these devices, which resemble those of standalone portable media devices.

## Snom 3xx, 8xx and m3 Phones

---

Snom offers interoperability, technology leadership and reasonable solutions in VoIP. Take advantage of the know-how of the snom specialists for your IP telephony. High quality, the latest security standards and a diversity of functions for greater efficiency are an absolute must for Snom products.

## Polycom IP Series Phones

---

An intuitive user interface offers dedicated, one-button access to common telephony features, and an information-rich display delivers content for messaging, call information, directory access, and applications.

## Cisco/Linksys SPA-9XX Series

---

Stylish and functional in design, the SPA9XX VoIP telephones are ideal for a residence or business using a hosted IP telephony service, an IP PBX, or a large scale IP Centrex deployment.

## Cisco/Linksys SPA Analog Telephone Adaptors

---

Inexpensive, easy-to-install and simple-to-use, the Sipura SPA ATA's connect standard telephones and fax machines to IP-based data networks.

## Hitachi-Cable Wireless IP-3000 and IP-5000

---

IP-5000 - Hitachi-Cable Wireless IP-5000 Professional Wireless SIP IP-Phone Wifi 802.11 B. Ind. support for UPNP and outbound proxy.

The Hitachi IP-3000 is an all-round 802.11b wireless VoIP phone supporting the Session Initiation Protocol (SIP), which is essential for multimedia communications.

not recommended with automatic provisioning over NAT networks.

## Counterpath Eyebeam

---

CounterPath's eyeBeam 1.5 is a next generation telephony client designed to enhance the user's communications experience in Voice over IP. Whether you are a consumer or Small Office/Home Office (SOHO) user, eyeBeam allows you to stay connected and manage your calls and availability with a comprehensive suite of carrier-grade Voice, Video, IM and Presence features.

Taridium also offers solution certification for other phones. Please contact taridium at [info@taridium.com](mailto:info@taridium.com) for further details.
