

## Taridium Certified Phones

### Cisco 79XX Series

---

The Cisco IP Phone 7960G and derivatives, are key offering in the Cisco IP Phone portfolio. All SIP phones models supported.

### Aastra 67xxi Series Phones

---

The 67xxi phones from Aastra offer powerful features and flexibility in standards based, carrier-grade advanced level expandable IP telephones.

### Aastra SIP DECT

---

Employing the latest in DECT technology, the Aastra SIP-DECT™ Solution offers superior levels of interference-free performance, security and reliability in a cordless SIP telephone system. This scalable, enterprise grade, mobility solution allows users to take the features and voice quality of their desk telephone with them throughout their office environment or related branch offices serviced by the same Corporate network.

## Nokia S60 Phones with built-in VoIP Client

---

The Nokia N series 3G handsets are aimed at users looking to pack as many features as possible into one device. The better-than-average cameras often found on Nseries devices are one such example, as are the video and music playback and photo viewing capabilities of these devices, which resemble those of standalone portable media devices.

## Snom 3xx, 8xx and m3 Series Phones

---

Snom offers interoperability, technology leadership and reasonable solutions in VoIP. Take advantage of the know-how of the snom specialists for your IP telephony. High quality, the latest security standards and a diversity of functions for greater efficiency are an absolute must for Snom products.

## Polycom IP Series Phones & KIRK

---

An intuitive user interface offers dedicated, one-button access to common telephony features, and an information-rich display delivers content for messaging, call information, directory access, and applications.

## Cisco/Linksys SPA-9XX, SPA-5XX Series

---

Stylish and functional in design, the SPA9XX VoIP telephones are ideal for a residence or business using a hosted IP telephony service, an IP PBX, or a large scale IP Centrex deployment.

## Cisco/Linksys SPA Analog Telephone Adaptors

---

Inexpensive, easy-to-install and simple-to-use, the Sipura SPA ATA's connect standard telephones and fax machines to IP-based data networks.

## Counterpath X-Lite & Bria Softphone

---

Bria 3 is a carrier-grade next generation softphone application that enables you to manage your communications easily and efficiently – all from your computer desktop. Replacing or complementing your hard phone, the Bria softphone allows you to make VoIP and Video calls over IP, see when your contacts are available, send Instant Messages and transfer files with ease and efficiency.

The Bria client is also available for Apple's iPhone and Android based handsets.

Taridium also offers solution certification for other phones. Please contact taridium at [info@taridium.com](mailto:info@taridium.com) for further details.
